## BOOK SYNOPSIS

This established and best-selling text provides a comprehensive treatment of both the theory of economic development and the experience of developing countries, illustrated throughout with up-to-date case studies. Features of the new edition include: a new chapter on human capital - embracing education, nutrition, health, and the role of women in development; discussion of the new Sustainable Development Goals; the latest statistics on poverty and income distribution, and a guide to the construction of the multi-dimensional poverty index. Statistics in all the chapters are updated. The companion website provides useful links to topics in the text.
